The Mighty Mite company was founded in 1974 by professional musicians who were looking for an alternative to factory equippt guitars and basses. Our years of on-the-job experience led us to produce a complete line of great sounding and great looking replacement parts geared for today's demanding musicians. It is now possible to completely replace every part of your guitar or bass with Mighty Mite equipment for the look, feel and sound of custom instruments costing thousands of dollars. At Mighty Mite we are dedicated to quality, performance, reliability and the classic beauty that made us famous all over the world. We don't just make pickups, bridges and accessories. We make the best pickups, bridges and accessories. So, if what your looking for is custom looks, sound and feel, without paying a custom price, you owe it to yourself to check out Mighty Mite products. We've got what you want and it's all together at Mighty Mite...and that's straight from the Heart.
